AmCham Government & Public Affairs

►► Serves as the liaison between AmCham members and the Taiwan Government. It provides research, recommendations, and liaison coordination in support of **Chamber-wide and Committee advocacy issues**. It is also an important source of up-to-date information on government policies, legislation, and regulations for members, and offers valuable suggestions on how to overcome trade and investment barriers. **Annual trip to Washington D.C.**, following the publication of **the Taiwan White Paper**, an AmCham delegation meets with U.S. government officials, members of Congress, think tanks, and others with a vested interest in U.S.-Taiwan economic relations to help facilitate the Chamber's Advocacy efforts.

WHITE PAPER

One of the Department's major annual projects is the annual Taiwan White Paper, a comprehensive bilingual report summarizing the Chamber's recommendations on legislative, regulatory, and enforcement issues across business sectors that have a major impact on the quality of the business environment in Taiwan. The White Paper also provides suggestions on the adjustment of Taiwan's overall economic and trade policies.

COMMITTEES MEETINGS & BRIEFINGS

Organizes regular visits to the executive branches of the Taiwan government to keep abreast of government-related issues and laws of concern to the membership and to express members' concerns on government policies. In addition, the Chamber has been regarded as a reliable source of information about the political, economic, and business climate of Taiwan. Meetings are also briefings for academics think tanks, U.S. government visitors, members of Congress and congressional staffers, and political and economic analysts from overseas.

ADVOCACY

As the media contact window for the Chamber, the Department assists in media interview coordination for the Chamber's leadership, maintains media relations, and conducts media outreach to further the Chamber's advocacy efforts. The Department plays a key role in the preparation of the Chamber's advocacy messages in the TOPICS Editorial, Advertorial, and Issues stories, where important issues of concern to members are reported and their development monitored.

AmCham Committees

►► Much of the real work of the Chamber occurs at the committee level and many of AmCham's successes in lobbying for an improved business environment can be traced to these groups. AmCham Taiwan is comprised of **26 Committees** that represent and promote the specific interests of their fields of business. Each industry committee creates a Position Paper, included in the annual **Taiwan White Paper**, which is presented to the government and the public as a summary of the current business climate in Taiwan for each specific field. Committees also organize and host regular breakfast/luncheon events to keep members abreast of the latest industry trends and information.
